## 38. Count and Say - 22/08/24 (Medium)

```
Example 1:

Input: n = 4

Output: "1211"

Explanation:

countAndSay(1) = "1"

countAndSay(2) = RLE of "1" = "11"

countAndSay(3) = RLE of "11" = "21"

countAndSay(4) = RLE of "21" = "1211"

Example 2:

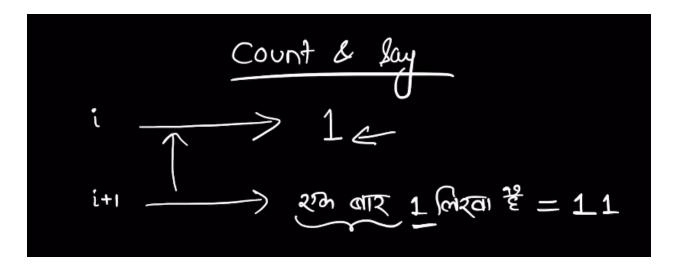

Input: n = 1

Output: "1"

Explanation:

This is the base case.
```
